

**CONFIDENTIAL XRAY
DESTRUCTION**
www.ecs-cares.com

Our decades of experience deliver the confidential & professional service you can trust!

XRAY FILM DESTRUCTION

Ask us about other media destruction & recycling solutions like: Silver Recovery, Plastic Media Recycling - Hospital ID Cards, Film Reels, Micro Fieche, Projection Slides. Lead Recycling, Electronic Waste, Chemical Disposal, Sharps Disposal Program. We even provide Scrubs Uniforms, Labcoats and More.

ENVIRONMENTAL CONTROL SYSTEMS purchases and recycles all types of scrap xray; processed or unprocessed, in or out of medical envelopes, with or without files, masking, etc. ECS will look after your special requirements and ensure confidentiality in all applications. We are fully licensed, bonded and insured. On-site film purging and pick up is available by our ECS Team anywhere across Canada.

All Xray film material is sorted and weighed to provide us with an actual paper vs xray film weight ratio. All paper envelopes and reports, etc. are shredded and recycled. On average, the paper vs xray film weight ratio is 50% film and 50% paper. In some cases, older xray film and some industrial xray film files may generate a higher film vs paper ratio.

**100% CONFIDENTIALLY
RECYCLED**

XRAY FILM PURGING

Whether you are looking for help taking the films off the shelves or just need us to haul it away for confidential destruction, we are here to accommodate. Our bonded team of professional service representatives will help you remove the films fast so that you can get back to your daily operations with seamless disruption.

Although our purge services are at the most competitive rates in the industry, you will always have the option to maximize your return by purging the xray film yourself. To help, we will be happy to deliver all the containers you need to get the job done.

**From Massive
warehouses to single
practice offices,
ECS is ready to
serve you!**

CONTACT US TODAY FOR MORE INFORMATION

Please call us anytime at 800.263.1857 to speak with our professional team. For quick access to an abundance of information about Xray Film Destruction and Purging and our many other products & services please visit online at www.ecs-cares.com

At your request, ECS will provide a certificate of destruction for the material we receive. ECS delivers the highest standard of security as we personally manage your xray & files from the time of pick-up to their destruction and maintain accurate reporting every step of the way.

Because ECS is also a silver refiner we are able to offer competitive compensation for your film material. The value is from the silver content in the film which varies in different film types and fluctuates with the market price of silver. We would be happy to price your film for you today by calling: 800.263.1857.

ECS provides you the containers you need to store your purged xray films. ECS offers both drums and large gaylord boxes for larger film purges typically used in hospitals and industrial locations.

MINISTRY REGULATION - With environmental preservation being of high priority, ECS takes all actions necessary to divert the end product from going to landfill.
